PROGRAM

For the first time, coming together from all over Europe, we are organising a holiday in the Dolomite mountains. We do this in order to return to the experience of the first Mariapolis, inspired by the charisma of unity, which took place there seventy years ago.

The program will consist of hikes and outings, sports, games, music, moments of spirituality and prayer, creative workshops and theme-based discussion groups.

Children and young people

may only participate with their families or accompanied by an adult who assumes responsibility for them. There will be some moments with parallel programs adapted for children.
